

145/203 structural molecule

68/88 structural constituent of ribosome

21/27 extracellular matrix structural constituent

62/85 metalloproteinase

84/131 active transmembrane transporter

7/10 monocarboxylic acid transmembrane transporter

7/10 organic acid:sodium symporter

26/38 organic acid transmembrane transporter

28/42 sodium ion transmembrane transporter

127/169 channel

333/480 transporter

295/428 transmembrane transporter

86/117 gated channel

12/15 protein tyrosine/serine/threonine phosphatase

14/20 phosphotransferase, phosphate group as acceptor

10/14 nucleoside diphosphate kinase
